

# In FACTORY

Diagnostics are just the beginning.

Unparalleled control over your factory floor.

Asset Science's dashboards give you access to KPIs in real time.

## REDUCE YOUR BOUNCE RATE BY 80%

The dashboard empowers team leaders to correct misdiagnoses the moment they occur.

## BOOST CUSTOMER SATISFACTION

More control over your factory process means more control over the quality of your product.

## AN UP-TO-THE-MINUTE SNAPSHOT OF YOUR FACTORY

Optimize your workflow and maximize productivity with critical metrics at your fingertips.

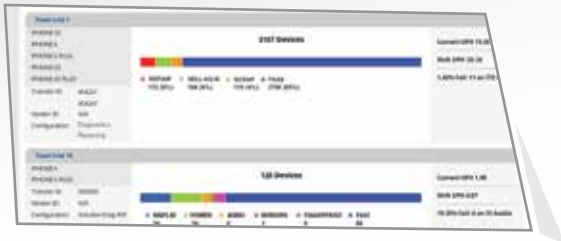

## KEEP YOUR OPERATORS ON TRACK

Our diagnostic application uses random false positive results to monitor operator performance.

## Why Asset Science?

- ✔ Test any iOS, Android, or BlackBerry device
- ✔ Choose the depth of testing
- ✔ Reduce processing time with WiFi-free activation
- ✔ Flag blacklisted devices with a direct IMEI lookup
- ✔ Configurable to your process
- ✔ Scalable to your changing needs
- ✔ Built-in operator audits and quality control tools
- ✔ Track process run counts in real-time

Leverage your data to gain critical business insights.

Comprehensive insights into your operations.

Produce detailed reports in minutes.

See how devices perform over time.

Reward your best operators.

# ROBOTICS

The future of mobile diagnostics is here.

## MAXIMIZE CONTROL

Our mobile device testing robot gives you the highest level of control over your operations, data, and finances.

## IMPROVE ACCURACY

The fully-automated process eliminates human error, ensuring consistent and accurate results.

## MINIMIZE COSTS

At only a fraction of the cost of other mobile device testing robots, it's a solution that quickly pays off.

## ASSET SCIENCE

MOBILE DEVICE DIAGNOSTICS YOU CAN TRUST

We've been in the mobile diagnostics industry since 2010, driving customer satisfaction through our **In-Hand**, **In-Store**, and **In-Factory** solutions.
